

Electric motor 0.5hp QB60 peripheral water pump

Products Description

QB series peripheral pumps are mainly used to transfer clean water or other liquid which is similar with water character. It is suitable for domestic water supply, automatic water sprinkler system, small air conditioner system or supporting equipment etc.

PRODUCT SPECIFICATIONS

Selling Point

- * Easy to operate
- * Low cost * Hot-sell in many market
- * Low noise

Configuration

Housing: Aluminum Alloy

Shaft: Carbon Steel/Stainless Steel

Insulation: Class b/Class F

Protection : IP44/IP54

Cooling: External Ventilation

Pump Body: Cast Iron (with Brass Insert if required) Impeller: Brass/Stainless Steel

Mechanical Seal: SIC/Ceramic/Graphite

Model	Power (kw)	Power (HP)	Inlet/outlet (Inch)	Max Suction (M)	Max Head (M)	Max Flow (M3/h)	Pack dimension (MM)
